

Ahmed Muhumed

ERP Developer · Odoo Specialist · Technical Consultant · Telecom Engineer

Hargeisa, Somaliland · ahmetoshukr@gmail.com · github.com/Ahmed-Shukr · linkedin.com/in/ahmed-muhumed

PROFILE

I design, develop and implement business systems, combining ERP engineering, software development, telecom engineering and technical consulting. The work is requirements, architecture, implementation, deployment and support — not generic software demos.

EXPERIENCE

Software Engineer / Technical Consultant

2023 — Present

- Custom Odoo module development across hospital, education, registrar and service workflows.
- Requirements analysis, system architecture, access control and operational dashboards.
- Deployment on Linux with Docker, PostgreSQL and multi-database Odoo environments.

Software Developer — Merit Advisory Services LLP

- Design, development and testing of Odoo modules, products and interfaces.
- Server configuration and maintenance of multi-database Odoo/Ubuntu environments.

RNPO Engineer — Telesom

2019 — Present

- 2G, 3G, 4G and 5G radio network planning and optimization.
- KPI analysis, coverage and quality investigation, network troubleshooting.
- Field engineering across Somaliland / Somalia.

RNPO Engineer — Amtel

- Radio network planning and optimization preceding the Telesom role.

Guest Lecturer — Gollis University

2024

- Technical training on cellular systems from 1G through 5G NR for telecommunication engineering students.

SELECTED WORK

- Hospital Management ERP — Odoo, Python, PostgreSQL, OWL.
- Business Registrar Dashboard — Odoo, OWL, Chart.js, PostgreSQL.
- Exam Management Platform — Odoo examination workflows for technical training.
- AI Helpdesk — LLM-assisted classification and drafts under agent control.
- School Management System — public high-school administration in Hargeisa.
- Telecom optimization practice — live-network RNPO method across 2G–5G.

SKILLS

ERP: Odoo 17/18 · Python · PostgreSQL · ORM · XML · Security · Workflows

Frontend: JavaScript · OWL · Chart.js · HTML · CSS · Tailwind

DevOps: Linux · Docker · Git · Deployment

Telecom: 2G · 3G · 4G · 5G · RNPO · RF / KPI analysis

AI: LLM integrations · AI-assisted workflows · Automation

EDUCATION

Bachelor's Degree — Telecommunication Systems Engineering
